

Hi

I attended the tank day last Saturday (25th April) and wanted to say what a brilliant day it was. I enjoyed every single aspect of the day, even the musket shooting which I hadn't been that bothered about but which was really interesting. Driving the vehicles and tank was awesome!

I particularly enjoyed listening to Colin ? -the SAS guy, and the guy in the Armoury who explained about the guns in such an interesting way. These are ex soldiers who have been there and done it and hearing about their experiences and views was fantastic. The little snippets of information from all the trainers were invaluable.

I managed to get 10 out of 10 on the Humvee was amazed me.

Please pass my thanks on to all your staff, esp the great looking girl trainer! lol

Regards

Paul Hughes
